## MEDICAL MATERIEL

### Material Obligation Validation (MOV) Cycle 98-01

MOV Cycle 98-01 began on 20 January 1998 and is scheduled to end on 5 March 1998. If you have outstanding requisitions from any Defense Logistics Agency (DLA) that qualify for the MOV cycle (see AFMAN 23-110, Chapter 8, Attachment 6 for criteria), you should receive an MOV Cycle within five days of 20 January.

There have been many problems with the MOV Cycles in the past few years, most of them related to non-receipt of the images into MEDLOG.

Successfully processing a cycle results in a MOV Transaction List. The superintendent or materiel manager should review the list to determine the requirement for all items listed. This review is required because numerous old requisitions, mostly WRM, were canceled by the account without the knowledge of the superintendent or materiel manager. Canceled requisitions cannot be reinstated. Once the appropriate action is determined, responses are processed using the "AVD" transaction.

Even if you lose the MOV Transaction or confirm that MEDLOG received the cycle correctly with an "AP9" on the AUTODIN Transaction List Part II, you can still use the "AVD" transaction to screen print each document, or process on line.

If you did not receive an MOV cycle, contact the Logistics and Readiness Analysis Team at AFMLO and we will get a copy of the cycle and forward it to you. You can then enter your responses using the

"AIT" screen. (AFMLO/FOC-A, SSgt Glenn Blackshear, DSN 343-4050)

### 1997 Symposium Web Page
